Zip Away!

On The Red River Gorge Zipline

There I was flying through the air at almost fifty miles an hour and more than three hundred feet up. Wow!

No, I wasn't the victim of a crash, I was zipping across one of Kentucky's most beautiful sights in the heart of the Red River Gorge region. Yes, zipping as in a zipline.

The Red River Gorge Zipline and Canopy Tour at Cliff View Resort is one of the Bluegrass state's newest and most exciting Adventures. The Resort and Zipline are located a few miles from the famous Natural Bridge State Park, just off the Mountain Parkway. I had already traveled about 1,000 feet and was barely half way across Kentucky's longest, highest and fastest zipline. My adrenaline level was at an all time high and my heart was racing. This is awesome! Not only is the Gorge one of Kentucky's most beautiful places, but now it is also one of the most

exciting.

The Zipline and Canopy Tour consists of five lines and several high canopy walks. The last two longest spans are dual racing lines. The tour takes about 2 to 3 hours counting 'saddling up', thorough instructions and takes you through gorgeous scenery.

My adrenaline level was at an all time high and my heart was racing.

Highly trained guides make certain the fun factor is high yet safety is utmost. They inspect your gear at each station, make certain you're properly tethered and all you do is lift your knees and Zip away to the most exciting ride of a lifetime. Visit www.RedRiverGorgeZipline.com or call 1-888-605-2609 for reservations.
